Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 26 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cohen, (6,056,464), in view of Kee.

Cohen teaches a maraca in combination with a pen, and the Kee reference teaches a bottle opener in combination with a lighter. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make a combination tool of a maraca or shaker with a bottle opener, since both references teaches combining tools, and the Kee reference teaches combining a bottle opener with another device.

Response to Arguments

Applicant's arguments filed 7/25/05 have been fully considered but they are not persuasive. The Applicant argues that with the correction made by the amendment to the specification of the claim of priority, that it removes the Cohen patents D428,298; D429,942; and D37,885, from being applied as prior art. The Examiner has applied the Cohen, 6,056,464 reference since it has a filing date of 5/2/200, which is more than a year prior to the 5/25/01 priority date.
